Subject: RE: NCA4 Chapter outlines for review

That sounds fine, Rona. I added Lesley and Mike to the share list.

Subject: RE: NCA4 Chapter outlines for review

Ok, a couple of us will plan to look over a few of the chapter outlines and give Lesley comments to consolidate....I don't imagine we'd have much if anything. The folks who may want to have a look and will need access include (I think Mike Kolian is the only one below not already on your share list):

Rona Birnbaum
Lesley Jantarasami
Allison Crimmins
Michael Kolian

Thanks.

Hi Rona. A single set of comments would help make my life easier. Since that's what it's all about, that would be great. I've added Allison to the share list, and would be glad to add others if you'd prefer not to do the distribution yourself.

Hi Andy, as in the past, a few of my folks will likely have a look. As with previous reviews like this, should we plan on providing to you in a single set?
Thanks, Rona

All:

The chapter outlines for the fourth National Climate Assessment (NCA4) have been provided to each of the USGCRP agencies for review and comment. Each of the 26 outlines is 3-4 pages, although a few author teams have been overachievers in this regard. Please let me know if you are interested in reviewing and providing comments to me on any or all of the outlines. If you are interested, I will provide access to the outlines in a OneDrive folder.

Review comments are due to me by **COB February 1**. I will consolidate comments and enter into the USGCRP comment system.

Please do not forward this email to anyone who is not an EPA employee.

Andy

This is the list of chapters (note that there is no outline for the Northern Plains chapter):

- Water
- Energy
- Land Cover and Land Use Changes
- Forests
- Ecosystems, Ecosystem Services, and Biodiversity
- Coastal Effects
- Oceans and Marine Resources
- Agriculture and Rural Communities
- Built Environment, Urban Systems, and Cities
- Transportation
- Air Quality
- Human Health
- Tribal and Indigenous Communities
- North American and Other International Effects
- Sectoral Interdependencies and Compounding Stressors: The Science of Complex Systems
- Northeast

Southeast
US Caribbean
Midwest
Northern Great Plains
Southern Great Plains
Northwest
Southwest
Alaska
Hawai'i and Pacific Islands
Near-Term Adaptation Needs and Increased Resiliency
Mitigation: Avoiding and Reducing Long-Term Risks
